ICAG TESTIMONIALS

★★★★★

I really appreciate this opportunity. I joined Aspire somewhere in 2020. It was recommended by a friend. I must say Aspire is a good place for every student who wants to further his professional course in accounting. Most of the principles and standards that govern the profession are well explained when you come to Aspire. And I have started recommending it to my colleagues. I can't forget their tuition, recorded video, technology etc, it is super.

I was so busy and most of the time don't join live lectures. I focus on recorded videos and this is how far I have come. I failed CR several times when I was left with that paper alone. But with the encouragement and motivation, prayers from Dr Eli kept me pushing. And this is how far I have come. I am so grateful to Dr Eli and the entire team for their good work. God bless you all.

I registered with ICAG in 2017 with the hope of completing my degree with a CA. I completed the level one in 2017. In 2018 I started the level two, got discouraged at some point and stop.

Fast forward after the degree I had scholarship from ICA so I was motivated again and stop again after MA makes me lost interest. I went away to do my MSc, then a colleague at work introduced Aspire to me. And the rest was history. All my paper I wrote since joining Aspire were one touch including SCS and CR.

I salute team Aspire.

ICAG TESTIMONIALS

★★★★★

I joined Aspire Executive Institute through a friend and struggled with corporate reporting. Their excellent lectures and materials really helped me grasp the subject. I failed my first attempt, but didn't give up. With Aspire's support, I passed on my second try.

I'm grateful and proud to be part of Aspire! I've even recommended it to colleagues, one of whom passed her CA exams on the first attempt, and I'm preparing my daughter to join when she's done with her tertiary education. Aspire gave me hope and helped me achieve my goal, I'm so thankful. God will continue to bless you all.
